PENN ST CONDOS COMCAST CABLE REPAIR

DATE: MAY 30, 2016

RE: LETTER OF REFERENCE FOR: JORGE GUERRERO, ADVANCE COMMUNICATIONS, LLC.

CABLE ROUTING AND REPAIR.

TO: TROY CHAPMAN – TECHNICAL OPERATIONS SUPERVISOR

TROY,

On Monday, May 16 and Tuesday, May 17, 2016, Jorge Guerrero of Advance Communications, LLC, arrived at 1 S. Pennsylvania St to begin repair of a real mess regarding loose and abandoned coax cabling hanging all over the Homeowner's Association building and grounds. The weather was cold and rain was drizzling both days but Jorge and his crew made short work of a very tangled mess.

From the very first contact with Jorge he projected a very warm, friendly, and professional personality. His crew was just as professional.

He and his crew turned the picture on the left into the picture on the right! He also adjusted the cable molding runs to be placed on the south side of the building to give the property better curb appeal.

I would highly recommend Jorge Guerrero of Advance Communications, LLC, for any cabling installs or repairs.
